INTRODUCTION

Computer Engineering student pursuing minor degree in Management Studies. Passionate about building efficient software, collaborating on real-world projects, and improving technical and professional skills.

SKILLS

- ❖ **Languages:** HTML, CSS, C, C++,SQL,Python(basics)
- ❖ **Design Tools:** Canva
- ❖ **Technologies:** VS Code,Github

EDUCATION

- ❖ B.Tech. | Computer Engineering CGPA: 9.345 | 2027
Usha Mittal Institute of Technology
- ❖ XII (HSC) 91%| 2023
Career Launcher Junior College of Science
- ❖ X (SSC) 100%| 2021
SPS's Shree Mumbadevi Vidya Niketan

POSITION OF RESPONSIBILITY

- ❖ **Creative and Graphics Head | Writers' Club** 2024-2025
Usha Mittal Institute of Technology
Led visual design for club magazine, events, and social media. Oversaw the creative and graphics team to ensure cohesive and compelling visual output.

ACADEMIC PROJECTS

- ❖ **INTERVISTA – AI-Powered Interview Intelligence & Adaptive Learning Platform(Ongoing)** [Project]
 - Developed a web-based application for personalized interview preparation by using candidate resumes, target roles, and job requirements to generate context-aware assessments and interview questions.
 - Built an end-to-end interview workflow supporting text and voice responses, performance evaluation, communication analysis, and identification of candidate skill gaps.
 - Integrated frontend interfaces with backend APIs, AI services, speech-to-text processing, and database storage to support application workflows and performance tracking.
 - Developed a performance-based recommendation workflow to identify weak areas and provide relevant learning resources for candidate improvement.
- ❖ **Student Attendance Management System** [Project]
Developed a web-based platform to automate student attendance with digital data entry, attendance tracking, and report generation. Implemented session-wise attendance management, dynamic CSV reports, and login/logout functionality to improve administrative efficiency and reduce manual errors.

ACHIEVEMENTS

- Participated in **Smart India Hackathon (SIH)** – a prestigious national-level innovation competition organized by the Government of India solving real world problems.
- Participated in **HackX 3.0** – a 24 hour hackathon organized by GDG UMIT and GDG NMIMS dealing with real world problems and finding effective solutions. [Certificate](#)
